## USAGE GUIDE

### What is SCD Bio Klean?

SCD Bio Klean is an all-natural, industrial strength cleaner containing powerful microbes, and their metabolites that break down grease, dirt and grime.

SCD Bio Klean is made using SCD Probiotics Technology and the principles of beneficial microorganism applied science. The proprietary blend of microbes repopulates the contaminated area with healthy bacteria to create a clean, healthy environment.

For customised Bio Klean solutions and examples of successful case studies from around the globe, please contact [roger@probiotics.net.au](mailto:roger@probiotics.net.au)

Many household applications suggest the use of a spray bottle for application. Transfer the desired amount of SCD Bio Klean into a clean spray bottle and dilute according to instructions.

Tightly close the cap on the original SCD Bio Klean bottle (to help maximise efficacy of the probiotics inside). Use the diluted amount in the spray bottle within 1-2 days for maximum effectiveness.

SCD Bio Klean is a concentrate and should be used as directed. Always test on fabric in an inconspicuous location prior to application.

# SCD Bio Klean

Industrial Cleaning Applications

Application	Dilution Ratio	How to Apply
<b>Drain Maintenance</b>	Undiluted	Pour down drains 1-2 times per week.
<b>Sewer Line and Septic System Maintenance</b>	Product to Waste 1:500	Apply dilution to sewer lines every 2 weeks, or as needed.
<b>Ponds and Lagoons</b>	Product to Pond water 1:2,000 to 10,000	Apply monthly by spraying over pond surface or introducing at various central and peripheral spots around pond edge.

Commercial Building/Hotel and Hospitality Maintenance Applications

Application	Dilution Ratio	How to Apply
<b>Linens</b>	Undiluted	Fill washbowl/machine with warm water and add product as needed. Use ½ cup per load and reduce detergent by ½.
<b>Food Preparation Surfaces and Processing Equipment</b>	Probiotics to Hot Water 1:50	For daily use, spray with dilution and wipe clean. <b>SCD Bio Klean</b> may be used in conjunction with other natural, non-toxic cleaning solutions.
<b>Grease Traps</b>	Probiotics to Grease 1:50	For normal buildup, apply every four to six months to maintain low grease trap levels. Depending on the type or amount of buildup, <b>SCD Bio Klean</b> may need to be applied more regularly.
<b>Mould and Mildew</b>	Probiotics to Water 1:10 to 1:50	Spray dilution onto dry surface and scrub clean. For continuously damp areas, <b>SCD Bio Klean</b> may need to be applied more regularly.
<b>Sinks and Counter</b>	Probiotics to Water 1:50	Wipe surface with dilution weekly or as needed. <b>SCD Bio Klean</b> may be used in conjunction with other natural, non-toxic cleaning solutions.
<b>Degreasing Tile, Hardwood, Linoleum and other Hard Surfaced Flooring</b>	Probiotics to Hot Water 1:100	Mop with hot water.
<b>Hot Tubs</b>	Probiotics to Water 1:1500	Apply every 2-3 weeks.

## USAGE GUIDE

### Storage

Store at room temperature and DO NOT REFRIGERATE.

Always keep the lid tightly on and away from direct sunlight.

SCD Bio Klean is produced through a natural fermentation process and is not chemically synthesized, genetically engineered or modified (Non-GMO).

This product may cause sedimentation but that will not impact the product's effectiveness.

Shelf life of 3 years, however best to use within 6 months of opening.

Safe for people, pets, plants and the planet.
